## OPEN LETTER FROM THE COURSE DIRECTOR

### READ BEFORE YOU RUSH

Dear Aspirant,

I am glad that you have started thinking seriously about competitive examinations. No other reason do I find why you made an enquiry at ICD KOLLAM. And I honestly believe that I can help you.

At this juncture, I would like to let you know frankly a few things. By their very nature, competitive exams are different from academic exams. In academic exams you need not beat others to succeed. But in competitive exams you have to beat others to ensure your success.

The crowd that comes to me can be divided into two. **One-** those who realise the importance of professional training in clearing competitive exams. **Two-** those who are mesmerised by the record success of ICD. ICD welcomes the first category and prefers to shut its door to the second. You self-introspect which category you belong to. Then decide whether to join.

Simply put in, ICD welcomes hard workers. I am alumnus of the Indian Institute of Management, Kozhikode (IIM, K) and it is my pursuit to associate myself with students having high degree of enthusiasm and a positive frame of mind. If you have these elements in you, leave the rest to us.

Consider ICD a jail; you be a willing prisoner; I shall be a tough jailor; with joint efforts, we can escape to victory.

*'What separates Men from the Boys'* is that positive mind, that willingness to work hard and that simple, obedient and believing kind of attitude.

Let me presume that you possess that kind of attitude.

Wishing you all the success,

Kollam,  
20/07/2017

## 6. THE DECORUM:

This institute has produced more than 12000 bankers in the past Twenty One years. And the credit of this unmatched track record is justly attributed to the high level of decorum the students keep inside the premises. Strict attendance, punctuality and a preparedness to adhere to the rules of the institute are absolute necessities.

**In nutshell we simply need hard workers.**
